BULLETIN

DATE: June 12, 1991
TO: All Aerial Device Manufacturers
Ground Ladder Manufacturers
SUBJECT: FAMA Aerial Survey

I am very pleased to report that Vickie has received the final report that completes our aerial survey for 1990, with all companies reporting.

Consistent with past practice, I am sending the preliminary results to the aerial manufacturers & ground ladder manufacturers who participated in the survey. The "official" results, certified by the accounting firm, will be mailed to Bill Bruns, Secretary of FAMA. I will then mail the certified results to the participants. The numbers will remain the same.

Listed below is a comparison to 1989:

<u>AERIALS</u>			
	<u>With Pump</u>	<u>Without Pump</u>	<u>Total Units</u>
1989	310	106	416
1990	355	90	445

<u>GROUND LADDERS</u>			
	<u>Mini- Pumpers</u>	<u>Class A Pumpers</u>	<u>Aerials</u>
1989	119	3,846	480
1990	181	4,257	329

Please note that the ground ladder manufacturers' report is an indication of what they believe the aerial and pumper market is, based on the number of ladders they sell.

If you have any question, please call.

Sincerely,

John J. O'Grady, Jr., Chairman
Statistics Committee
